Abstract (en)

Wall safe comprising a box-like body (1) which defines the safe containment compartment and is structured so that it can be walled and anchored in a wall; the box-like body is provided with means (21-28) for the removable fixing of a frame (18) to which the door (20) which closes the front opening of the safe and includes the lock (36) is articulated; these means can be accessed only through the front opening. <IMAGE>
