Abstract (en)

An apparatus (16) and a method for repairing metal containers (10) which are provided with a cylindrical base portion (12) to support the container (10) in a free-standing position. The apparatus (16) includes means (20) for securing the container (10) in position while repairing same and vice means (22) which acts on the deformed cylindrical base (12) without the necessity of removing same. <IMAGE>
