Abstract (en)
[origin: WO9301346A1] In order to finish or treat wool or woollen fibre so as to provide as felt-free a surface as possible, the wool or fibres are briefly treated by means of a substantially strongly acid, aqueous solution of potassium permanganate.

Abstract (fr)
Pour l'apprêt ou le traitement infeutrable, autant que possible superficiel et ménageant les fibres, de la laine ou de fibres de laine, la laine est traitée rapidement au moyen d'une solution aqueuse de permanganate de potassium essentiellement très acide.
