Abstract (en)

[origin: EP0548861A1] Assembled screw for an extruder, in particular for the processing of moulding compositions for ceramic products, comprising a single-start screw (1) and a two- or multi-start pointed-head screw (2), which are connected to one another detachably by means of a rigid, positive-locking coupling (8) and, after the separation of the coupling (8), can be joined together in different angular positions. The coupling (8) is formed by end toothing (11) between the single-start screw (1) and the pointed-head screw (2). <IMAGE>
