Abstract (en)
[origin: EP0550835A1] The subject matter of the invention is a wet razor. In order to produce a wet razor which permits the user always to shave under the best possible conditions, the invention proposes a wet razor (2) having a handle part (3) and having a blade part (4) with at least one exchangeable razor blade, proposes a device for registering the use of the razor, proposes an electronic evaluation unit which is connected, via a signal line, to the device for registering the use of the razor (2) and proposes an electric display (12) which is connected to the electronic evaluation unit (20). <IMAGE>
