Abstract (en)

The invention concerns a label fixing means for affixing a label in a wrapping machine (10) which has been arranged to wind a wrapping film (F) around the product to be packaged (1) and, possibly, to cut the film off and to seam the film against the film wrapped around the product, the label fixing means (20) being provided with a transporter (21) for transporting the label (22) from a storage roll or a cassette (23) with the aid of driving rolls (24), driven by a power means (25), and a label applicator (26) having applicator members (27) disposed to grasp the label conveyed by the transporter and to push it against the product. <IMAGE>
