Abstract (en)
[origin: WO9207398A1] Branching-off box (1) having a multiplicity of power sockets (10) for connection with Euro-plugs (100) whereby the sockets (10) of the box (1) are positioned on a narrow top wall (6) having a width corresponding to the smaller cross section of the oblong Euro-plug and the connecting openings (12, 13) are positioned in one row along a central line at the narrow top of the box (1). Within the box (1) the conductor rails run parallel in a zigzag shape at the opposite wall (7) such that the conductor rails are passing corresponding connecting openings (12, 13) of the sockets (10) in the box (1). Between the connecting openings and the conductor rails there is additionally arranged a closing arrangement in form of a so-called childproof protection.
