Abstract (en)

[origin: EP0553413A1] To accommodate packaged goods in a manner which is dustproof and secure against theft, the packaging bag (10) having a rectangular, square or other geometric shape is formed by a front wall (11) and a rear wall connected to the front wall (11) in three side regions. In the fourth side region (16) there is provided a filling opening which can be firmly closed after the packaging bag (10) has been filled, and incorporated in the front wall (11) or rear wall of the packaging bag (10) is a break or tear tab (20). Arranged in a partial region of the removal opening covered by the break or tear tab (20) is a tab-holding blank (30) which covers the said opening in one section and under which engages on the inside of the package the break or tear tab (20) torn out from the front wall (11) or rear wall, with the result that after the packaging bag has been opened it is possible to reclose it. <IMAGE>
