Abstract (en)  
[origin: EP0553484A1] The invention relates to a storage device for a razor. In order to provide a device of this type which on the one hand makes possible safe storage of the razor and which on the other hand can be used as a stand from which the razor can be easily removed for its use according to its purpose, the invention proposes a housing having two housing parts (8, 2) which can be pivoted with respect to each other, a longitudinal guide (11) in one housing part (8) and at least one guide element (12) which is attached to the other housing part (2), can be displaced along the longitudinal guide (11) and, when the two housing parts (8, 2) are pivoted from a first position in which the device is closed into a second position in which the razor (1) is accessible for removing, at the same time forms the pivot. <IMAGE>
