Abstract (en)

This storage unit comprises at least one device with a toggle joint (5). When the carrying case (2) is in position on the support (1), actuation of the toggle joint in a first instance locks the lid (7) of the carrying case onto the body (6) of the latter then, in a second instance, locks the carrying case onto the support. When the toggle joint is disengaged, the carrying case is released but its lid remains locked onto its body. Application to tool boxes. <IMAGE>

Abstract (fr)

Cet ensemble de rangement comprend au moins un dispositif à grenouillère (5). Lorsque la mallette (2) est en place sur le support (1), l'actionnement de la verrouille dans un premier temps le couvercle (7) de la mallette sur le corps (6) de celle-ci, puis dans un deuxième temps, verrouille la mallette sur le support. Lorsqu'on dégage la grenouillère, la mallette est libérée mais son couvercle reste verrouillé sur son corps. Application aux boîtes à outils. <IMAGE>
