Abstract (en)
[origin: EP0555655A1] 2.2 The guide elements for the closure plates (13) are designed as guide strips (16) which extend essentially over the length of the holding plate (11). The guide strips (16) are formed by embossing the layer (11a) of the holding plate (11) which is remote from the filter bag (10). As a result, the said strips are offset with respect to this layer (11a).
