Abstract (en)
The scissors of the improved type comprise two identical portions (2), a base portion and an upper portion, respectively, revolving around the same axis and of a substantially flat shape, whose profile consists of a first length (4) tracing an arc whose center is represented by the above-mentioned axis of rotation and at least one rectilinear length (5) along which there is defined a cutting blade (6); each portion (2) presenting at least one grip eyelet (7). <IMAGE>
