Abstract (en)

[origin: WO9208837A2] The invention pertains to biodegradable fabric softeners based on selected amines which, in protonated form, exhibit an unexpectedly favourable softening action. The selected amines essentially contain ester-groups, and preferably are diester amines.

Abstract (fr)

L'invention se rapporte à des adoucissants biodégradables pour tissus, basés sur des amines choisies qui, sous une forme à addition de protons, présentent une activité adoucissante favorable et inattendue. Les amines choisies contiennent essentiellement des groupes esters et sont de préférence des amines de diester.
