Abstract (en)

[origin: EP0560218A2] A wall element for forming a convertible partition wall, comprising a plurality of wall elements, is composed of a wall body (1) which has, on two opposite edges, a border profile which is composed of a tube (4), part of which is covered by a touch-and-close strip (5). The tube (4) is preferably received in a hollow channel (2) of the wall body (1) and is braced with respect to the wall body (1) by two retaining elements (11) provided at the end sides. <IMAGE>
