Abstract (en)

[origin: EP0560717A2] To change the content of a tariff memory of a postage meter (1) with weight input, which contains the relation between weight and postage value, a loading connector (9) provided which is connected for this purpose into an interface connecting socket (7) of the postage meter. The content of a memory enclosed in the loading connector (9) can be loaded into the tariff memory of the postage meter (1) by operating command input means of the postage meter. When the tariff is changed, the loading connector (9) is sent to the user so that the user himself can update the content of the tariff memory of the postage meter without the sealed housing of the postage meter (1) having to be opened by an authorised person. <IMAGE>
