Abstract (en)
[origin: WO9210637A2] A tool for making holes in the ground comprises a ram tip and coupling means for connecting to a drive device, for instance a hydraulically or pneumatically operating tool driving machine or a vibrator operating for instance with eccentrically placed rotatably drivable masses for successively exciting the ram tip in the direction of the free end with vibration or percussion.

Abstract (fr)
Outil servant à faire des trous dans le sol et comportant une pilonneuse et un dispositif d'accouplement reliant celle-ci à un dispositif d'entraînement, par exemple une machine d'entraînement hydraulique ou pneumatique, ou un vibreur associé par exemple à des masses excentriques rotatives destinées à imprimer à l'extrémité libre de la pilonneuse des vibrations ou des percussions.
