Abstract (en)

The invention relates to a work bench (1) for a machine tool, comprising a base plane (3) made in aluminium alloy and internally exhibiting a "honeycomb" conformation, and a work plane (5) exhibiting a horizontal lower surface connected to a horizontal superior surface of the base plane (3); the work plane (5) is superiorly crossed by a network constituted by a plurality of horizontal grooves (9,10,11) and its superior surface is crossed by a plurality of holes (17) equipped each with a removable stop (24); the said work plane (5) being duperiorly defined by a wall (7) made by extrusion and exhibiting an inferior portion defining a plurality of tubular bodies (8) arranged side-by-side and reciprocally parallel and connected to an aspiration source (14). <IMAGE>
