Abstract (en)

[origin: GB2265565A] A razor head of a wet razor comprises a pair of blades separated by a spacer 21, a guardbar 10 and a top cover 4. The guardbar 10, spacer 21 and top cover 4 parts are provided with comb-like projections 28, 29, 30 which are aligned with each other and create a protection for the skin. The dimensions and positions of the comb-like projections 28, 29, 30 are such as to optimise the balance between the closeness and safety of the shave. <IMAGE>
