Abstract (en)
[origin: EP0565444A1] Storage tank for liquefied gas intended to be buried, including a vessel (2) coated on its external wall with an anti-corrosion coating covered at least partially by matting (4) formed by a double-walled textile consisting of two textile webs joined together by a plurality of transverse linking threads, the space between the two textile webs being filled by a particulate material having heat-transfer properties similar to those of the ground. <IMAGE>
