Abstract (en)
[origin: WO9309886A1] In order to reduce the storage space required for accessories, such as wash gun (10), spray lance (18), pressure hose and electric cable, in a high-pressure cleaner (1), plug-in receptacles (16, 17) are arranged in the housing (2) for plugging in the wash gun (10) and spray lance (18), so that the accessories are safely stored and quickly accessible, In addition, the pressure hose is clamped and held by its own elasticity between two opposing hose hooks. A solution is also proposed for safely retaining and at the same time for quickly unwinding and rewinding the cable roll, in that a cable hook (13) is movable with respect to a second stationary cable hook (14).
