Abstract (en)  
A visor for safety helmets comprises a shield (3) mounted in a frame (4) and attaching means for attaching the visor to a safety helmet (1) and a non-transparent shield holder (5) to which the shield (3) is removably attached. The holder (5) comprises an interconnecting portion (22), a frontal bill portion (20), an interconnecting portion, a rear bill portion (21), and two supporting arms (60,61), arranged for hinged and removable attachment to a safety helmet (1) provided with a frontal guard portion (11). The visor is arranged movably between a protecting position (G) and a non-protecting position (H) and temporarily can be held in either position, the rear bill portion (21) of the holder (5) essentially superimposing the frontal guard portion (11) of the helmet when in the protecting positions (G). <IMAGE>
