Abstract (en)  
[origin: EP0578597A1] Connector for a battery terminal of the type making it possible to link each of the terminals of the said battery to the user circuit, and including a means of rapid locking and unlocking of the said connector onto the corresponding terminal, characterised in that it consists essentially of a battery clip (1) including two half-shells (6, 7) able to move elastically in order to clamp the terminal under the action of a locking key (2) articulated on the said battery clip. <IMAGE>
