Abstract (en)

[origin: WO9217515A1] Polymerizable, organic-soluble, oligomeric fluorochemical surfactant compositions having at least two pendent fluoroaliphatic groups, at least two organic-solubilizing groups, and a pendent polymerizable olefinic group. Also a method of preparing such surfactant compositions and acrylate adhesives containing such compositions.

Abstract (fr)

Compositions tensioactives fluorochimiques oligomères organo-solubles, polymérisables comprenant au moins deux groupes fluoroaliphatiques pendants, au moins deux groupes de dissolution organique et un groupe oléfinique polymérisable pendant. Un procédé de préparation de ces compositions tensioactives et des adhésifs à base d'acrylate contenant lesdites compositions sont également décrits.
