Abstract (en)

[origin: WO9314818A1] Equipment including a helmet (10) with a hard shell and an inner lining, a balaclava-type skin-contacting hood (26) separating the head from the environment, and an oronasal breathing mask (20) connected by a conduit (22) to an external breathable gas supply and having a member (16) for attaching it to the helmet. The hood comprises a web (28) with at least one opening to be placed in front of the wearer's eyes, and a removable transparent visor (30) having a member for attaching it to the hood and/or helmet in a position in which its edges sealingly engage the web around the opening.
