Abstract (en)

[origin: EP0581673A1] The subject of the present invention is a product (1) made from non-magnetic material, including at least one ferromagnetic element (3) for specifically marking this product and/or the material constituting the said product, the said ferromagnetic element (3) being intended for reclaiming the said product contained in rubbish tips, characterised in that the ferromagnetic element (3) is placed underneath an identification member (2). The present invention also relates to a method and an installation for reclaiming products of this type. <IMAGE>
