Abstract (en)

[origin: EP0581759A2] A clip for fastening identification cards or the like, which consists of two jaws (1, 2) made of plastic and connected by a film hinge (3), of which the one jaw is provided with a projecting resilient tongue (4) which is bent in a hook shape and engages in an opening (6) in the other jaw when the jaws are closed and, with a toothed catch (5) snaps onto the edge (24) of the opening. Adjoining the root of the resilient tongue (4) is a resilient tab (10) which is oriented in the opposite direction and is provided with a pin (9) for snapping into a bead (22) consisting of claws (8). <IMAGE>
