Abstract (en)

[origin: EP0582780A1] In a supporting element, in particular supporting element (20) for supporting shelves (50) which are arranged in the inner space of a piece of refrigerating furniture (10) and which rest on a supporting section (23) provided on the supporting element (20) and are held by this section positively, as a result of their gravitational force, in and counter to their direction of insertion, an additional force, which supports and non-positively secures the positive connection, is exerted on the shelves (50) in their edge region (52). <IMAGE>
