Abstract (en)  
[origin: WO9315794A1] The present invention relates to a gas-liquid mixture especially for use as a fire extinguishing agent. The mixture contains a) at least one halogenated carbon or C1-C10 hydrocarbon, b) a chemical compound having a high steam pressure and a low boiling point, high solubility in the halogenated compound and a capacity of dispersing the halogenated compound, and/or an inert gas. The invention also relates to a fire extinguishing unit and a method for using the mixture.

Abstract (fr)  
La présente invention se rapporte à un mélange gaz liquide utilisé notamment comme agent d'extinction d'incendie. Le mélange contient: a) au moins un carbone halogéné ou un hydrocarbone C1-C10, b) un composé chimique ayant une pression de vapeur élevée et un faible point d'ébullition, une haute solubilité dans le composé halogéné et une capacité à disperser le composé halogéné, et/ou un gaz inerte. L'invention se rapporte également à une unité d'extinction d'incendie et à un procédé d'utilisation du mélange.
