Abstract (en)
[origin: WO9220540A1] A towbar is disclosed comprising a plurality of sections which lock together to form a single length, the two sections at opposite ends of the assembled towbar having couplings to attach to respective vehicles and the adjoining ends of adjacent assembled sections each comprising a connecting member, one male (1; 20) and one female (2; 21), one of the connecting members including a locking member (5; 26) which locks the male connecting member within the female connecting member.

Abstract (fr)
On décrit une barre de remorquage comprenant une multiplicité de parties qui se verrouillent réciproquement pour former une seule longueur, les deux parties situées aux extrémités opposées de la barre assemblée comportant des éléments d'accouplement devant être fixés à des véhicules respectifs, et les extrémités contiguës des parties adjacentes assemblées comprenant chacune un élément de raccordement mâle (1; 20) et femelle (2; 21) respectivement, l'un des éléments de raccordement étant pourvu d'un élément de verrouillage (5; 26) qui permet de verrouiller l'élément mâle dans l'élément femelle.
