Abstract (en)

[origin: EP0585704A1] The invention relates to work stations for cleansing articles, such as surgical instruments, using washing and/or rinsing liquids which emit harmful, obnoxious or unpleasant vapours and volatiles. According to the invention the work station includes a lid (17,20), which closes the sink (14) from atmosphere whilst a cleaning operation is being performed, means for supplying and draining (30) washing and/or rinsing liquids to and from said sink (14), and an air circulating means (37,39) for circulating air from said sink (14), through a filter means (38) and back to said sink (14) to dry all liquid deposits from said sink (14) before the lid (17,20) is opened. <IMAGE>
