Abstract (en)
[origin: WO9218494A1] Oxime ethers of general formula (I), wherein R2 and R3 together with the two carbon atoms to which they are bonded form an unsubstituted or substituted five- to seven-membered ring comprising 1 or 2 oxygen atoms, and R1 and X are as defined herein, have phytofungicidal action. They can be used, in the form of formulations, as plant-protection compositions, dressing compositions and wood-protection compositions.

Abstract (fr)
On décrit des éthers d'oxime de formule générale (I), dans laquelle R2 et R3 forment avec les deux atomes de carbone auxquels ils sont liés un noyau de cinq à sept chaîons non substitués ou substitués comprenant un ou deux atomes d'oxygène, et R1 et X sont définis dans le descriptif. Lesdits éthers d'oxime ont une action phytofongicide. Ils peuvent être utilisés sous forme de formulations, comme compositions de protection de plantes, compositions de culture et compositions de protection du bois.
