Abstract (en)

[origin: EP0586934A1] Noise reducing device in a blower (11), in particular a side duct blower for the combustion air supply in a heating device, provided with a gas inlet duct (13), a gas outlet duct (14) and a gas advance arrangement (15), there being arranged, at least in the region of the opening cross-section (18, 19) of the gas inlet duct (13) and/or of the gas outlet duct (14), an arrangement for inducing a flow resistance (interference arrangement 20, 21). <IMAGE>
