Abstract (en)

[origin: WO9220835A1] Disclosed is the use of 2-ethylhexyl esters of fatty acids, optionally mixed with emulsifiers, solubilizers, corrosion inhibitors and/or water, as low-viscosity agents for the cold cleaning of metal surfaces contaminated mainly with oil. Such agents are non-toxic when inhaled and completely biodegradable.

Abstract (fr)

Des 2-éthylhexylesters d'acides gras, mélangés le cas échéant à des émulsionnants, des agents de solubilisation, des inhibiteurs de corrosion et/ou de l'eau, conviennent comme agents de nettoyage à froid de faible viscosité, sans risque toxique par inhalation et complètement biodégradables, utilisables pour les surfaces métalliques encrassées principalement par l'huile.
