Abstract (en)
A cardboard box of the type used in transport of fruit and the like, with a strip body wherein a central sector (1) is defined forming the bottom (1) of said box framed by fold lines into sectors corresponding to the side (3) and double end walls (7,8), with an adjacent (7) and an outer half (8) linked by a double fold line (9) so that the outer half folds over the inside face of the adjacent half; Each end wall also has lateral extensions (11,12) each of which forms an outer and an adjacent linked by extensions of the same folding line (9) connecting the two halves of the end wall as such.
