Abstract (en)
[origin: EP0589289A2] 2.1. Cigarette packs of the hinged-lid type are provided with an inner wrapping (21) which, in the region of a front wall (26), forms a tear-off tab (34) which is bounded by a perforation line (35). This tear-off tab is provided in the region of the front wall (26) with a printed image (36) which fills the front wall for advertising purposes or as a coupon. 2.2. To provide a larger printing area, the tear-off tab (34) is larger than usual owing to a lower-lying perforation line (35). <IMAGE>
