Abstract (en)

[origin: WO9322472A1] The use of organo-metallic compounds that contain as metallic component an element of the 2nd or 4th main group, of the 1st-8th sub-group, of the rare earths or bismuth, is disclosed for precipitating the metal on substrates, as well as new compounds of this type.

Abstract (fr)

On utilise des composés organométalliques contenant comme constituant métallique un élément du 2ème ou du 4ème groupe principal, du 1er au 8ème sous-groupe, des terres rares ou du bismuth, afin de précipiter des métaux sur des substrats. De nouveaux composés de ce type sont également décrits.
