Abstract (en)

[origin: EP0592308A1] A strip of self-adhesive labels, especially for a franking machine, comprising a first continuous strip of a printable medium (2) having one adhesive face coated with an adhesive substance (3) and intended to be cut over its length into segments so as to form self-adhesive labels, characterised by marginal regions (5) on the said adhesive face which are formed by transverse bands without adhesive substance. This strip makes it possible to avoid the knives of automatic label dispensers being fouled when cutting up the strip. <IMAGE>
