Abstract (en)

[origin: FR2679319A1] A method for processing mainly liquid organic waste, wherein an aqueous mixture of substances to be incinerated is prepared, a hydrocarbon such as fuel oil (14) is added thereto along with surfactants (3), the mixture is agitated and a non-fuel gas (7) is incorporated therein to form a foam, and the foam is placed in a furnace (9).

Abstract (fr)

Procédé de traitement de déchets organiques principalement liquides consiste à réaliser un mélange aqueux des substances à incinérer à laquelle on ajoute un hydrocarbure du type fioul (14) et des agents tensio-actifs (3), à agiter ce mélange en y incorporant un gaz (7) non combustible afin de créer une mousse et à introduire cette mousse dans un foyer de combustion (9).
