Abstract (en)

[origin: WO9217587A1] A protein which is uncontaminated by components from B. bronchiseptica, which is capable of binding to antibody which also binds the native P.68 antigen of B. bronchiseptica and which has (a) the amino acid sequence (I) or (b) an amino acid sequence which has a homology of more than 98 % with the said amino acid sequence (a).

Abstract (fr)

On décrit une protéine non contaminée par des constituants de B. bronchiseptica, capable de se lier à un anticorps qui se lie également à l'antigène P.68 natif de B. bronchiseptica et qui présente (a) la séquence d'acides aminés (I) ou (b) une séquence d'acides aminés qui présente une homologie supérieure à 98 % avec ladite séquence d'acides aminés (a).
