Abstract (en)

[origin: WO9302168A1] This relates to a process for the production of a granular detergent composition comprising admixed high active alkyl sulfate particles made by steps including continuous neutralization, and spray dried granules comprising detergency builder, soluble silicate, and essentially no alkyl sulfate.

Abstract (fr)

Procédé de production d'une composition détergente granulaire dans laquelle sont mélangés des particules de sulfate d'alkyle hautement actives dont les étapes de production consistent en une neutralisation continue, ainsi que des granulés séchés par pulvérisation comprenant un adjuvant de détergence, du silicate soluble et aucun sulfate d'alkyle.
