Abstract (en)  
[origin: EP0596755A2] A container (10) has dimensions which enable it to be lifted and transported lengthwise by a conventional skip truck (34), while also allowing it to be accommodated crosswise with other containers (10) within a standard ISO container. The container (10) has both means for handling by normal container equipment, such as fork lift slots (26), and means such as lugs (30) for handling by skip truck. <IMAGE>
