Abstract (en)
[origin: WO9325038A1] A mark is incorporated to the original during the fabrication of said original in such a way that said mark is invisible on the original but appears on the copy of the original which is made by using a photocopying machine. The mark is incorporated by additionally mixing the original image to be protected and the marking image to be concealed in the original by modulating one or the other of the images or by manipulation of Fourier transforms.

Abstract (fr)
On incorpore une marque sur l'original lors de l'élaboration dudit original, de façon que cette marque soit invisible sur l'original mais apparaisse sur la copie de l'original effectuée à l'aide d'une photocopieuse. On incorpore la marque en mélangeant d'une façon additive l'image originale à protéger et l'image de marquage à camoufler dans l'original en modulant l'une ou l'autre des images ou par une manipulation de transformées de Fourier.
