Abstract (en)
[origin: WO9117316A1] A glare barrier device (1) comprising a non-transparent elongate member (2) with support structures or formations (5, 6) for maintaining member (2) substantially parallel to and spaced from ground level, such that member (2) acts a barrier to the passage of vehicle headlight beams through glare barrier (1).

Abstract (fr)
Barrière anti-éblouissante (1) comportant un élément allongé (2) non transparent possédant des structures ou formations de support (5, 6) destinées à maintenir ledit élément (2) dans une position sensiblement parallèle au sol et espacée de celui-ci de sorte que cet élément (2) serve de barrière au passage à travers la barrière anti-éblouissante (1) de la lumière des phares de véhicules.
