Abstract (en)
A canopy (10) for extending over an upper portion of a building (29) during construction or reconstruction of a roof thereof comprises a rectangular flexible sheet (11) having straps (18) extending from a pair of opposite margins thereof. The straps (18) are secured to a structure (26,27,28) and tensioning means (20) is provided so that the sheet (11) is maintained in tension, when supported relative to the structure (26,27,28) by operation of the tensioning means (20). <IMAGE>
