Abstract (en)  
Apparatus for cleaning drinking utensils such as glasses, cups, mugs etc. comprising an input station for receiving the drinking utensils to be cleaned, an output station for receiving the cleaned drinking utensils, spraying means for spraying fluid on the drinking utensil, at least one brush unit for mechanically cleaning of the drinking utensil, a conveyer for transporting the drinking utensil along the spraying means and along the brush unit from the input station to the output station. The conveyer is embodied for transporting the drinking utensils in a vertical plane from the input station, where the drinking utensils are received bottom down, to the output station where the drinking utensils are delivered bottom up. <IMAGE>
