Abstract (en)  
[origin: EP0600406A1] Disclosed is a method of desulfurization of unsaturated hydrocarbons or hydrocarbons containing unsaturated hydrocarbons. The method of desulfurization of the invention is characterized by desulfurizing unsaturated hydrocarbons or hydrocarbons containing unsaturated hydrocarbons, in the presence or absence of hydrogen, by using a copper-zinc desulfurizing agent prepared by co-precipitation method. According to the method of the invention, the sulfur content in hydrocarbon materials can be reduced while suppressing hydrogenation of unsaturated hydrocarbons.
