Abstract (en)

[origin: WO9325738A1] The invention concerns a heater (1) for a moving thermoplastic yarn which is passed along a heated surface over annular segments (2). The heat flow to the yarn can be controlled by modifying the geometrical heat-transfer parameters.

Abstract (fr)

L'invention concerne un élément chauffant (1) pour un fil thermoplastique mobile guidé par des segments annulaires (2) le long d'une surface chauffée. Le flux thermique au niveau du fil peut être réglé par la modification des paramètres géométriques de transfert de la chaleur.
