Abstract (en)

[origin: EP0603508A1] Ironing machine with a steam device for moistening the ironing material, in which the water quantity fed to a steam generator (20) is matched to the evaporation capacity of the latter by a regulation dependent on steam pressure of the feed capacity of a water pump (17), the exciting coil (26) of which can be switched by a controller (23). A steam-quantity setting device for matching the steam quantity to different ironing material is provided. <IMAGE>
