Abstract (en)
[origin: EP0604318A1] Stretch labelling sleeve intended to be applied stretched onto a receptacle. From a wide sheet, there are formed, by welding (3), a sleeve (1) and a flap (2) which is coated on its free end with a layer of adhesive (4), the flap (2) being capable of being detached and folded down on the outer face of the sleeve (1). The flap is used to give a surface which can be printed above the single lateral surface of the receptacle.
