Abstract (en)

The invention relates to carboxylic acid derivatives of the general formula A - B - C - D - E - COORa, (I) in which A to E and Ra are defined as in Claim 1, in particular compounds of the formula (II), <IMAGE> to their tautomers, their stereoisomers, including their mixtures, and to their salts, in particular to their physiologically tolerated salts with inorganic or organic acids or bases, which have valuable pharmacological properties, preferably aggregation-inhibiting effects, to drugs (medicaments, pharmaceuticals) containing these compounds, and to processes for their preparation.

Abstract (de)

Die Erfindung betrifft Carbonsäurederivate der allgemeinen Formel A - B - C - D - E - COORa, (I) in der A bis E und Ra wie im Anspruch 1 definiert sind, insbesondere Verbindungen der Formel (II), <IMAGE> deren Tautomere, deren Stereoisomere einschließlich deren Gemische und deren Salze, insbesondere deren physiologisch verträgliche Salze mit anorganischen oder organischen Säuren oder Basen, welche wertvolle pharmakologische Eigenschaften aufweisen, vorzugsweise aggregationshemmende Wirkungen, diese Verbindungen enthaltende Arzneimittel und Verfahren zu ihrer Herstellung.
